5. Fire-fighting measures

Suitable extinguishing media

Extinguishing media: CO₂, foam, dry powder; in cases of larger fires, water spray should be used. In the event of fire and/or explosion do not breathe fumes.

Extinguishing media which must not be used for safety reasons

Do not use a solid water stream as it may scatter and spread fire.

Special exposure hazards arriving from substance or preparation itself, combustion products, resulting gases

Using the product may be accompanied by the formation of explosive/highly inflammable vapour-air-mixtures. Use water spray to cool unopened containers.

Special protective equipment for fire-fighters

Wear self contained breathing apparatus for fire fighting if necessary.

6. Accidental release measures

Personal precautions

Keep people away from and upwind of spill/leak. Ensure adequate ventilation.

Environmental precautions

Do not flush into surface water or sanitary sewer system.

Methods for cleaning up/taking up

Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).

Additional information

Remove all sources of ignition.

7. Handling and storage

7.1 Handling

Advice on safe handling

Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours).

Advice on protection against fire and explosion

Keep away from heat and sources of ignition.

Further information on handling

Provide sufficient air exchange and/or exhaust in work rooms. Do not smoke.

7.2 Storage

Requirements for storage rooms and vessels

Keep container tightly closed in a dry and well-ventilated place. Protect from frost.
